The Rule Of Law

Matter is classified as a pure substance when all of the particles are identical. Matter is classified as a mixture if there are different particles present. Key Questions: 1. Identify which drawings from Model 2 are pure substances and which set are mixtures. List the codes for each set here. Pure Substances Mixtures

Chemistry Crunch #1.2 Name: KEY Classification of Matter ...

A way to classify matter is to divide it into synthetic and natural materials. Natural materials are those found in nature. For example: wood, cotton (cotton grows on plants), rocks, wool, eggs, and even human beings. These materials are not made in a factory or a laboratory. Synthetic materials are those that are man-made. They are made in factories or laboratories.
