Benchmarking Staffing, Structure and Budgets of EHS&S ...

In 2012 the National Association for Environmental Management ("NAEM") issued a report on the results of a survey of the organizational structure, staffing levels and responsibilities of the function that supported a company's environmental, health and safety ("EHS") and sustainability goals. The survey consisted of online questionnaires to full time, "in house" corporate EHS and sustainability professionals and qualitative interviews with senior EHS and sustainability leaders ...

Structures and Staffing for Environmental, Health and Safety

NAEM's EHS & Sustainability Staffing, Structure and Budgets report allows you to benchmark your company's function based on industry, revenue, head count and risk profile. It also provides detailed information on the scope of EHS responsibilities, including the areas where the function is most often collaborative and the relationship between EHS and sustainability within companies today.

The Most In-Depth EHS & Sustainability Staffing...

Traits of some EH&S organizations include an unwillingness to deal with problem employees, a preference for rigid rules instead of a focus on employee competency, complex structures (e.g., safety and health separated from environment because the managers are at odds), functionally isolated, rudimentary information systems, and so on.

Staffing and Structuring Your EH&S Organization | GreenBiz

NAEM developed the EHS & Sustainability Staffing, Structure and Budgets report to meet the needs of those who are responsible for designing EHS&S functions, creating staffing plans and establishing annual EHS&S budgets.
