All manuscripts will be examined to detect inappropriate use of previously published material without attribution. Spandidos Publications uses iThenticate to screen submitted manuscripts against previously published studies and other relevant sources. Authors are also encouraged to use iThenticate to screen their manuscript prior to submission.

International Journal of Molecular Medicine - Spandidos Publications

However, the decision regarding when to euthanize is fraught with medical, financial, ethical, religious, moral, and sometimes legal considerations. Euthanasia is therefore a medical procedure that needs to be discussed (however painful that discussion may be) and considered thoroughly before a final decision is made.
