case demonstrates a PI-RADS 5 lesion of the posterior transition zone and the posteromedial and posterolateral peripheral zone. The case also depicts the “erased charcoal sign”, which refers to an appearance of a homogeneously T2 low-signal lesion in the transition zone of the prostate with indistinct margins. In this case, it is the smudged

Radiology is the medical discipline that uses medical imaging to diagnose diseases and guide their treatment, within the bodies of humans and other animals. It began with radiography (which is why its name has a root referring to radiation), but today it includes all imaging modalities, including those that use no electromagnetic radiation (such as
