Health Communication in the New Media Landscape. Description.
Health Communication in the New Media Landscape
demonstrates the extent to which modern, digital technology
can serve as the most practical and efficient form of distributing
health-related information. To date, little guidance exists for
health care professionals who want and need new ways to
communicate health information with each other, their patients,
and the general public.

Health Communication in the New Media Landscape

The term media refers to the predominant means of
communication (such as television and newspapers), particularly
