"A major challenge about the values in education is to teach non-discrimination and respect for others. Students must learn to recognize different cultures and ways of thinking, and to understand that prejudices can hinder the ability to think and live in peace. This challenge also extends to the natural world and bio-diversity.

The Importance of Teaching Values in Education - GoConqr

Education is the process of facilitating learning, or the acquisition of knowledge, skills, values, beliefs, and habits. Educational methods include teaching, training, storytelling, discussion and directed research. Education frequently takes place under the guidance of educators, however learners can also educate themselves. Education can take place in formal or informal settings and any ...

Education - Wikipedia

There are two main approaches to values education, some see it as inculcating or transmitting a set of values which often come from societal or religious rules or cultural ethics while others see it as a type of Socratic dialogue[2] where people are gradually brought to their own realisation of what is good behaviour for themselves and their community.
