We're sorry - that page can't be found - isa.org

Sadly, some reference material is horribly outdated and I would hope that ISA has updated the actual exam to be more relevant (eg. 1992 book referencing the difference between PLC's and DCS's.) Some of the questions are also too vague to be considered a fair test of one's automation knowledge.

Certified Automation Professional Study Guide Edition

Answer C is not an advantage particular to self-study workbook training, as all forms of training will spark interest in many areas, which should lead to further study. Reference: Trevathan, Vemon L., A Guide to the Automation Body of Knowledge, Second Edition, ISA, 2006.

Certification Review - CAP - May/Jun 2016 - ISA
