ISO 45001 is finally published, so the experts and the companies that are planning the transition or implementation are looking into the requirements for documented information. The new standard introduces a new approach to document and record control, which replaces the OHSAS 18001 requirements for records and procedures with new requirements for documented information.

ISO 45001 documents: List of required policies & procedures

Commonly used non-mandatory BCMS documents and records. The list of documents usually doesn't end with the checklist of ISO 22301 mandatory documentation above. In most cases (unless you are a small company), you would also use these documents, even though they are not strictly required by
