John Deere 4050 tractor engine. Engine Detail: John Deere: turbocharged diesel: 6-cylinder: liquid-cooled: The 5.9-liter (359) engine was used in European-market 4050 tractors and appeared on North American models just after the start of the 1986 model year, tractor serial number 006509.

TractorData.com John Deere 4050 tractor engine information

John Deere had moved on from the 404 by then, to the 466. Poor low end torque was the main issue for this motor. The 359T was also being produced by that stage in far greater numbers, so probably far more economically to build that engine, especially as the 404 needs some development to overcome the low end torque issues.

Pros Cons 359T vs 404 engines - Yesterday's Tractors

Dusty fields, rugged construction sites, damp forests, and the wide-open ocean — John Deere engines and drivetrain components are built to handle it. With a combine diesel, you need to watch that you get a late one with a Deere engine, and you will have to supply the tractor only diesel engine parts, the gas engine stuff will not work. Others that have done this swap tell me the 404 diesel is a bolt in, while the 466 is longer and needs hood and frame extension to work.
