American Indian elders also state that storytelling invites the listeners, especially children, to draw their own conclusions and perspectives while self-reflecting upon their lives. Furthermore, they insist that narratives help children grasp and obtain a wide range of perspectives that help them interpret their lives in the context of the story.

Narrative - Wikipedia

Definition: Stream of consciousness is a narrative device that attempts to give the written equivalent of the character's thought processes, either in a loose interior monologue (see below), or in connection to their actions.Stream-of-consciousness writing is usually regarded as a special form of interior monologue and is characterized by associative leaps in thought and lack of some or all ...
