Solutions Architecture Template - HUD

The SDD documents the high-level system design and the low-level detailed design specifications. The SDD describes design goals and considerations, provides a high-level overview of the system architecture, and describes the data design associated with the system, as well as the human-machine interface and operational scenarios.

System Design Document Template - CMS

The software architecture document provides a comprehensive overview of the architecture of the software system. It serves as a communication medium between the software architect and other project team members regarding architecturally significant decisions which have been made on the project.

Artifact: Software Architecture Document

The Technical Architecture Document (TAD) continues on beyond the project closure as a 'living' document. For this reason it is created as an independent MSWord document, a working copy of this is attached to this page during the life of the project. To obtain a TAD template, click on the link below which will open a read-only view.

Technical Architecture Document (TAD) | Project Management

System Design Document Template

The purpose of this document is to provide a detailed architecture design of the new Coop Evaluation System by focusing on four key quality attributes: usability, availability, maintainability, and testability. These attributes were chosen based on their importance in the

Software Architecture Documentation

One of the most common questions I get asked is how to produce "agile documentation", specifically with regards to documenting how a software system works. I've met many people who have tried the traditional "software architecture document" approach and struggled with it for a number of reasons, irrespective of whether the implementation was a ...

Agile software architecture documentation - Coding the ...

To document an emerging architecture, you have to keep a separate document updated along with the software. Since the software already serves as the documentation (see " The Source Code Is the Specification"), there's no need to produce a second specification (e.g., no need to create a software architecture document since the code ...

Software Architecture Document? Do You Need One? - NDepend

This page presents a well-created website system architecture diagram and other architecture diagrams created by Edraw. All templates are available to download and edit. A versatile cross-platform mind mapping tool.

Website System Architecture Examples and Templates

The IMPALA Platform infrastructure team, data architecture team, system integration team, security management team, project manager, NASA data scientists and users are the intended audience of this document. The IMPALA Platform is an assembly of commercial-off-the-shelf (COTS) products installed on an Apache-Hadoop platform.
