Background Information for Teachers This section contains a quick review for teachers of the science and concepts covered in this lesson. In everyday language, we describe gravity as the thing that pulls us down toward the surface of the Earth. It's the reason behind the old saying "what goes up, must come down."

Modeling Gravity | Lesson Plan - Science Buddies

The exact same concept applies to paper. A flat sheet of paper has a very thin cross section. That makes it very easy to bend, so it cannot even support much weight, let alone carry a load (additional weight, like people and cars on a real bridge). However, you can fold or roll the paper into a variety of cross-sectional shapes (Figure 3), all of which are much harder to bend.

Paper Bridge Design Challenge | Lesson Plan - Science Buddies

Earth & Space Science. Teach long term earth changes in real time and study the atmosphere, weather and climate and their impact on sustaining life. Mechanics. One stop for all your classical mechanics science and energy education needs. Exciting activities that make science active and fun! Force, Energy & Motion
