Slip-Fit Mufflers Slip-ons are an excellent choice since you retain your stock Harley exhaust pipes while adding improved performance and sound. Since the original pipes are kept, velocity and lower end torque is retained. Slip-fit mufflers increase flow compared to factory mufflers which are restrictive because of government regulations or sound restrictions.

Harley Exhaust Comparison | Harley Performance

Numerous Harley technicians even stated that without necessary top-end modifications, the motors would often last only between 500 and 5,000 miles. With Harley-Davidson trying to fix the engine rather than research and develop, they fell far behind the competition of the cheaper and more reliable Japanese bikes taking control over the market.

Harley-Davidson Shovelhead engine - Wikipedia

Some people are looking for more "get up and go" from their stock engines, while others are looking for higher dyno numbers. For those who have a stock or mildly modified engine the answer is to move up to the next "stage"... or a Stage 1 upgrade kit to be more exact.
